

Music is an addiction that afflicts millions of people.

www.musiciansunite.com

Though there is no cure, there are thousands of support groups across the planet made up of people that have the same addiction. These groups meet regularly on a stage near you. We suggest you join one of these groups immediately.

And that's the truth!

Everywhere you go (just about) there are musicians ready to entertain you. Why?... because that's what they do... every chance they get.

Not everyone can be a working musician but anyone can try... buy an instrument, take some lessons and practice, practice, practice.

Even if you end up only entertaining yourself and making yourself feel good... you've made steps.

Music has been making people feel good for 1,000's of years and will no doubt make people happy for 1,000's of years to come... and, as I always say, being part of an audience is always important too as without an audience... there is no show!
